SUMMARY

I'm a software engineer based in Houston, Texas, with 16+ years of experience building fast, reliable websites and web apps for clients worldwide. I've worked with startups, agencies, oil & gas companies, small businesses, friends and family, and I enjoy taking a project from the first sketch through launch and beyond.

SKILLS

Frontend: HTML 5, CSS 3, JavaScript, TypeScript, Angular, jQuery, Ajax

Backend: ASP.NET, PHP

Database: MySQL

EXPERIENCE

Senior Software Engineer, RPC Inc.

Nov. 2021 – Present | Houston, Texas

- Build and maintain a full-stack oil and gas application, from Angular front end to ASP.NET back end
- Develop real-time charts and dashboards that visualize live operational data
- Design and develop ASP.NET APIs and the services behind them
- Use AI coding assistants as part of the team's workflow for code generation, reviews, debugging and documentation
- Set up and maintain CI/CD pipelines for automated builds, tests and deployments

Senior Software Developer, Sogeti part of Capgemini

Mar. 2020 – Nov. 2021 | Houston, Texas

- Build the front end and back end of web applications
- Design and develop APIs
- Set up servers and databases
- Take projects from concept to finished product, working with designers, developers and product managers
- Make applications responsive and optimized across mobile devices and platforms

Senior Software Developer, MFG Analytic

Sep. 2018 – Mar. 2020 | Friendswood, Texas

- Gathered user and system requirements for new websites and applications
- Prioritized projects, set timelines and assigned tasks to team members
- Wrote and reviewed code, ran functional tests and debugged
- Mentored junior web developers and evaluated their performance
- Created wireframes and worked with designers on UI/UX elements

Lead Software Developer, FanReact

Jun. 2017 – Sep. 2018 | Houston, Texas

- Defined site objectives by analyzing user requirements and planning system features
- Built application user interfaces, setting priorities and choosing methodologies and tools across the development life cycle
- Programmed and tested applications, coordinating requirements and schedules with the team
- Recommended system solutions by weighing the pros and cons of custom development
- Connected applications to network systems and information servers

Web Developer, Academy Sports + Outdoors

Apr. 2014 – Jun. 2017 | Katy, Texas

- Designed, built and maintained web sites using scripting languages, content tools and digital media
- Wrote supporting code for web applications and sites
- Recommended and implemented performance improvements

Web Developer, AI Oil & Gas

Nov. 2013 – Apr. 2014 | Houston, Texas

- Designed, developed, tested and deployed web applications
- Worked with designers and programmers on web projects
- Fixed bugs and resolved problems

Web Developer, Tennis Express

Apr. 2013 – Nov. 2013 | Houston, Texas

- Built site layouts and user interfaces from design concepts using standard HTML and CSS
- Developed robust, user-friendly web applications
- Maintained existing sites and applications day to day

Web Developer, Uniquel Oy

Aug. 2012 – Apr. 2013 | Helsinki, Finland

- Built the technical side of the website and supported existing infrastructure
- Designed and implemented user-driven templates, databases and interfaces
- Developed graphic design and pages tailored to the site's users

Jr. Web Developer, MHG Systems

May. 2011 – Aug. 2013 | Mikkeli, Finland

- Worked with project managers and developers on specifications, deliverables and timelines
- Converted designers' images and layouts into CSS/XHTML themes
- Contributed regularly to Joomla CMS theme development

EDUCATION

Bachelor's Degree in IT, Xamk, South-Eastern Finland University of Applied Sciences

2009 – 2013 | Mikkeli, Finland

GPA 3.95

Thesis: Extension development using the jQuery library (grade 4.0)

LANGUAGES

English (Professional), Russian (Native), Turkish (Professional), Azerbaijani (Native), Finnish (Working)
